

## COVID-19 NOTICE

April 15, 2020

Almost 4 weeks have passed since the Manitoba government declared a state of emergency. The CMM staff would like to acknowledge the work our members do in continuing to provide quality maternal-newborn care in increasingly challenging circumstances.

While the CMM has focused its activities during these past weeks largely on items related to responding to the COVID-19 pandemic, the CMM Council and Committees have made the decision to postpone the following activities.

### **Council Elections**

The deadline for nominations for election to CMM Council (originally set for April 6th) has been extended to June 5th. Any member in good standing with the College, may nominate a maximum of three (3) members for election to the Council using the [Nomination Form](#)

Any members that are nominated must sign and submit a letter of consent advising that they are letting their name stand for election using the [Nominee's Consent and Eligibility Form](#)

### **Standard for Consultation and Transfer of Care**

To allow time for feedback from stakeholders, the CMM is delaying the implementation of the revised Standard for Consultation and Transfer of Care until further notice. The current Standard available on our website will remain in effect until the revisions have been approved.

### **Random Practice Assessment**

The selection of members to participate in the Random Practice Assessment process has been postponed until further notice. The Quality Assurance committee will provide a minimum of 30 days notice prior to the selection taking place.

Thank you all again for your work during these historic times. Please feel free to contact me if you have any questions.

Janice Erickson, Registrar
